Invitation to a 45-min Legal Review Consultation

URGENT: Is Your 2026 Japanese Compliance Strategy VDR-Ready?

The May 2026 FIEA revisions and the April 2025/2026 TSE simultaneous English disclosure mandate have fundamentally reshaped the legal risk landscape in Japan. Compliance is no longer optional; it is a fixed, high-cost requirement.

To proactively mitigate this risk, we invite your legal and compliance leadership to a complimentary 45-minute, expert-level consultation.

We will conduct a prescriptive review focused on:

1. **2026 FIEA Vulnerability Assessment:** Analyzing your exposure to the newly mandated definitions for **Cash-Settled Derivatives** and **Specially Related Parties** in Large Shareholding and Tender Offer reporting.
2. **Simultaneous Disclosure Readiness:** Reviewing your current workflow and technical capacity to meet the guaranteed 24-48 hour turnaround necessary for Prime Market TDnet filings.
3. **Data Governance Audit:** Assessing your M&A due diligence protocols against Japanese APPI standards for PII handling and cross-border data transfer, ensuring ISO 27001 compliance.

This session will provide actionable steps to transition your translation procurement from a cost center to a core compliance function, protecting your firm from regulatory fines and transaction failure.

Book Your Private 45-Minute 2026 Risk Consultation Today.
